Eveline Gomes

Gameplay Programmer |Recife, Brazil
📧 evelineg.gomes@gmail.com
🖇️ linkedin.com/in/eveline-gomes/
🧑‍💻 https://eveegomes.github.io/

Gameplay Programmer specializing in Unreal Engine 5, C++, Blueprint, and GAS. Experienced in building core gameplay mechanics, implementing complex abilities, and debugging systems across commercial PC titles and UEFN projects. Focused on writing clean, scalable code and solving architectural problems.

TECHNICAL SKILLS

Languages & Core: C++, C, ActionScript 3, Verse, Object-Oriented Programming (OOP), Data Structures & Algorithms, Data-Oriented Design (DOD)

Engines & Frameworks: Unreal Engine 5, Gameplay Ability System (GAS), Unreal Editor for Fortnite (UEFN), Proprietary Engines

Tools & Workflow: Git, Visual Studio, Rider, IntelliJ IDEA, Agile Development, Steamworks SDK

EXPERIENCE

Gameplay Programmer (Part-Time)

AlpaK' Games | Recife, Pernambuco, Brazil | Remote | Jan 2026 – Present

- Developing core gameplay features and character mechanics for QuilomboZ: Palmares in Unreal Engine 5 using C++ and Blueprint.
- Writing, maintaining, and refining gameplay systems based on design feedback and weekly planning iterations.
- Investigating and debugging gameplay bugs, state issues, and system bottlenecks within an active production codebase
- Collaborating with senior programmers and designers to continuously improve code architecture, discuss implementation approaches, and prioritize tasks.

Game Programming Intern

Gamebreaking Studios | California, USA | Remote | Jan 2026 – Jun 2026

- Integrated Steam Achievements into a proprietary game engine using ActionScript 3 and the Steamworks SDK.
- Analyzed existing codebase logic to identify achievement trigger points, design unlock pathways, and build reliable verification loops.
- Validated achievement functionality across different gameplay scenarios within a professional production pipeline.

Unreal Engine Developer (Freelance)

Black Hand (on Steam) | California, USA | Remote | Nov 2025 – Dec 2025

- Delivered gameplay and architectural improvements for The Dark West in Unreal Engine using C++ and Blueprint.
- Debugged and resolved tricky issues across gameplay logic, UI, AI behavior, audio systems, and GAS implementation.
- Prototyped new gameplay ability structures and worked closely with team leads during design and feature review cycles.

Unreal Engine Developer

Gixer Entertainment | São Paulo, Brazil | Remote | Aug 2025 – Sep 2025

- Contributed to the development of Changer Seven, working with Unreal Engine 5, C++, Blueprint, and GAS.
- Developed gameplay features, worked on abilities, fixed bugs, and extended existing systems while navigating a large production codebase.
- Worked alongside senior developers to adapt engineering solutions to evolving design requirements in a professional production environment.

Game Developer

Level8 | Rio Grande do Sul, Brazil | Remote |
Jan 2025 – Jun 2025

- Developed gameplay experiences using Unreal Editor for Fortnite (UEFN) and Verse, translating design concepts into interactive gameplay features and systems.
- Collaborated with designers and developers to create engaging player experiences while improving gameplay flow and functionality.
- Rapidly adapted to new tools and technologies within a production setting to deliver interactive gameplay elements.

Computer Lab Assistant

Seneca Polytechnic |Toronto, Canada | On-site |
Sep 2023 – Dec 2023

- Guided students through core programming concepts, debugging exercises, and lab assignments in the Introduction to Programming in C course.
- Maintained a productive, supportive learning environment during coding workshops and project hours.

EDUCATION

Computer Programming Diploma with Honors

Seneca Polytechnic | Toronto, Canada | On-Site |
Jan 2022 – Sep 2023

LANGUAGES

Portuguese: Native

English: Fluent

Professional Working Proficiency (Extensive experience collaborating remotely with U.S. studios and studying abroad)
